We are delighted to announce the **ISDTA 2024** (2<sup>nd</sup> International Symposium on Digital Technologies in Agriculture) and **DIGITAGRA 2024** (2<sup>nd</sup> Workshop - Digital Agriculture in Rural Area) which will be held on October 2024, Tuesday 1<sup>st</sup> to Friday 4<sup>th</sup> 2024 in Osijek, Croatia.

The new Hybrid format of **ISDTA 2024** includes face-to-face meetings and other events and option of participating online as well.

The **2<sup>nd</sup> ISDTA** will be organized by the Faculty of Agrobiotechnical Sciences Osijek, Josip Juraj Strossmayer University of Osijek, Centre for Applied Life Science Healthy Food Chain Osijek, and other partners from Croatia and from across the globe.

## **ISDTA 2024** Symposium Objectives

The **2<sup>nd</sup> ISDTA** will enhance exchange and dissemination of knowledge and experience, ideas and results and promote internationalization and friendships among researchers and professionals in all research fields associated with digital technologies in agriculture, with a focus on precision agriculture, agronomist education in digital agriculture, data collection and all the other aspects of digital technologies in agriculture. The major theme of the **2<sup>nd</sup> ISDTA** will be interdisciplinary application of technologies towards sustainable digital agriculture.

## **ISDTA 2024 Symposium Topics**

- ▶ Data collection, analysis and management
- ▶ Precision crop production
- ▶ Decision support systems and models in digital agriculture
- ▶ Digital technologies in agriculture
- ▶ Digital agroeconomic and marketing
- ▶ Agronomist education in digital agriculture

Papers not covered directly by the listed themes, and belonging to the field of Digital Technologies in Agriculture will be allotted to one of the listed sections. It is possible a new Symposium Topic will be created based on the topics of submitted papers, in the case enough papers about the new topic are submitted.

## **DIGITAGRA 2024 Workshop Objectives**

The main purpose of the 2<sup>nd</sup> Workshop Digital Agriculture in Rural Area will be:

- ▶ Connecting and training small farmers to use the potential of digital agriculture
- ▶ Digitalization of agriculture from data collection to agriculture production and rural development
- ▶ Skills acquisition, education and extension activities in digitalization of agriculture
